The latest news from Lloyd Stevenson Boatbuilders

WINTER 2017

Superyacht Tenders - LSB 53-56.

Work is nearly complete on our large custom superyacht tender project, with the last boat due for shipping late July. Unfortunately, due to strict confidentiality requirements we are unable to share much information with you, but we can show off a few teasers.

Homer's 21st

Gavin Osborne aka (Homer) recently hit 21 years' service with LSB, celebrated with a staff fishing competition. Homer is a real character and his long service was worth celebrating. Special thanks to Rob Basset, Bill Burrell, Ken Stevenson, Graham & Margaret Spooner and Bill & Christine Upfold for the generous use of their boats. As well as 'Powertool Centre', 'Waterford's' and 'Wyatt Machine Tools' for the prizes.

Vaka Motu 'Marshall Islands' – LSB 57

Lloyd Stevenson Boatbuilders is proud to work with the 'Okeanos Foundation' in the exciting production of ocean voyaging vaka. We recently launched Vaka Motu – Marshall Islands. It has been a rewarding process combining today's modern boatbuilding technologies with traditional methods of Polynesian construction and culture.

Vaka Motu 'Okeanos' LSB 58 - 59

After the successful launch of LSB 57 work immediately began on two more Vaka. These boats are a bit out of the ordinary for us, but we are proud to provide vessels that help fulfil the vision of Okeanos Foundation in protecting our oceans. <http://okeanos-foundation.org/>

Each hull is constructed of e-glass and foam core using advanced epoxy resin infusion processes. In contrast to these modern methods, traditional aspects will remain clearly visible with each hull lashed together using wooden beams and ropes.

Refit & Repair

Our refit department continues to be busy with a 64' Sunseeker 'Touche' m' dear' being relaunched in early July after a substantial refit including full repaint, upgrade of electrical systems, new soles, bow thruster and new hatches.

Royce and the refit team will barely have time for a breather as the 60' Elite sport fisher 'Lady Alison' fills the refit bay immediately after 'Touche' m' dear'.

Americas Cup Redemption

Massive congratulations to Emirates Team New Zealand on their recent sailing dominance in Bermuda. The last time we won the cup LSB saw an increase in international work. With our build schedules for 2018 filling fast it might be time to book in your refit, or get the ball rolling on that new build.

Auckland On Water Boat Show

Make sure you come and see us at the show this September, we will be there with one of our favourite 18 metre mid-pilothouse Elites, the stunning 'Antiquity'. We look forward to seeing you.
